Term: 2A

Title: Introduction to Shakespeare

## What went before?

Fantasy Writing

## Learning Intentions

- Understand key contextual points about Shakespeare's life and times
- Understand some of the key features of theatrical performance at the Globe theatre
- Understand the narrative of some of Shakespeare's plays and examine key moments
- Use quotes to support my interpretations of themes and characters
- Use terminology to correctly identify language techniques
- Explore the effect of language techniques on an audience
- Explore Shakespeare's intentions in using language techniques.

## Where next?

Poetry Around the World

## Vocabulary

Tier 2: **Elizabethan** - The era in which Elizabeth I reigned England.

**Genre** - The category or style of a piece of art, literature or music.

**Patriarchy** - A society in which men hold power and women are marginalised.

Tier 3: **Protagonist** - The leading character or one of the major characters in a play, film, novel, etc.

**Sonnet** - A poem of 14 lines typically having ten syllables per line, often ending in a rhyming couplet.

Knowledge  
Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. Name the genres of Shakespeare plays and identify their flags.
2. What was the name of the theatre Shakespeare founded?
3. How many plays did Shakespeare write?
4. What was the role of women in Elizabethan society?
5. What does PEAD stand for?

Sparx Reader is set every Wednesday, due the following Tuesday. Student must achieve a minimum of 250 Sparx reader points per week.

Educake Quizzes are set once a week to aid in literacy skills. Students are expected to get a minimum of 70% correct.

Term: 2B

Title: Poetry from Around the World

## What went before?

Introduction to Shakespeare

## Learning Intentions

- Understand about cultures outside of my own experience
- Identify poetic devices
- Learn how to explore an unseen poem using 'MATEs'
- Analyse the effect of poetic devices
- Understand how to explore meaning in poems
- Understand about the history and context behind poems

## Where next?

Spoken Language

## Vocabulary

Tier 2: **Culture**- The ideas and customs of a people or society.

**Context**- The circumstances around a text both historical and social.

Tier 3: **Rhyme**- Correspondence of the ending sound of words.

**Rhythm**- The flow of words due to stressed and unstressed syllables.

**Stanza**- The grouping of lines within a poem.

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. What is a key theme?
2. What does it mean to zoom in on a word?
3. What is MATEs?
4. List three poets that we study.
5. List 5 devices you could see in a poem.

Sparx Reader is set every Wednesday, due the following Tuesday.

Student must achieve a minimum of 250 Sparx reader points per week.

Educake Quizzes are set once a week to aid in literacy skills.

Students are expected to get a minimum of 70% correct.

Practical	No
Written test	Yes
Homework	No
Speaking	No
Listening	No

### What went before?

Place Value and Fractions, Decimals, Percentages

### Learning Intentions

- To use formal and mental methods for addition and subtraction of integers and decimals
- To solve addition and subtraction problems in real-life contexts
- To add and subtract using standard form
- To understand and use factors and multiples
- To use formal and mental methods for multiplication and division of integers and decimals
- To solve problems involving area of 2D shapes
- To solve problems using the mean
- To find fractions and percentages of amounts
- To find the whole, given a fraction or a percentage of an amount

### Where next?

Directed Number and Fraction addition and subtraction

### Vocabulary

1. **Standard Form** – a way of writing really big or really small numbers. Written in the form  $A \times 10^n$  where A is a number between 1 and 10 and n is an integer
2. **Factors** – a number that divides exactly into another number
3. **Multiples** – a number made by multiplying together two other numbers
4. **2D shape** – made by a line or lines drawn on a surface
5. **Mean** – the ‘arithmetic’ average. Found by adding together all the separate values of the data and dividing by how many pieces of data there are.

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. Complete  $11018 + \underline{\quad\quad} = 13873$
2. Calculate  $26.8 - 9.35$
3. What is the HCF of 55 and 50?
4. What is the LCM of 18 and 15?
5. Calculate  $\frac{3}{4}$  of £64

Sparx Maths is set every Wednesday and is due the following Tuesday  
All students should aim for 100% or should record 30 mins of active work

### What went before?

Four Operations and Fractions/Percentages of Amounts

### Learning Intentions

- To understand and use representations of directed number
- To use the four operations with directed numbers
- To solve two step equations
- To convert between mixed numbers and improper fractions
- To understand and use equivalent fractions
- To add and subtract any fractions/mixed numbers with any denominators
- To use equivalence to add/subtract fractions and decimals
- To add and subtract simple algebraic fractions

### Where next?

Geometric Reasoning and Constructing and Measuring

### Vocabulary

1. **Numerator:** the "top" number on a fraction
2. **Denominator:** the "bottom" number on a fraction
3. **Mixed Number:** a fraction consisting of an integer and a vulgar fraction
4. **Vulgar fraction:** a fraction where the numerator is less than the denominator
5. **Improper fraction:** a fraction where the numerator is greater than the denominator

Knowledge Organiser    Answers  
Quiz Questions

Homework    Parent  
Expectations    Guide

1. Work out  $\frac{3}{5} + \frac{1}{3}$
2. Express  $\frac{35}{6}$  as a mixed number
3. Express  $1\frac{11}{13}$  as an improper fraction
4. Work out  $2 - -3$
5. Work out  $-3 \times 9$

Sparx Maths is set every Wednesday and is due the following Tuesday  
All students should aim for 100% or should record 30 mins of active work

# Learning Programme

## Subject: Science

**Year Group: 7      Term: 2a/2b      Title: Variation**

**What went before:** Human Reproduction

### Learning Intentions

- Define Variation
- Compare continuous and discontinuous variation
- Plot continuous data in graph form
- List factors which affect variation
- Describe how animals adapt to changes in the environment

**Where next:** Voltage

### Vocabulary

1. **Characteristic:** A particular feature of an organism
2. **Species:** A group of living things that have more in common with each other than with other groups
3. **Variation:** The differences within and between species
4. **Continuous variation:** Where differences between living things can have any numerical value
5. **Discontinuous variation:** Where differences between living things can only be grouped into categories

**Knowledge Organiser  
Quiz Questions**

**Answers**

**Homework  
Expectations**

**Parent  
Guide**

1. What are the two factors that cause variation?
2. What are genes?
3. Give an example of continuous variation
4. What type of graph would you draw to represent continuous variable?
5. What is a species?

**Homework Expectations:**  
Weekly Sparx science homework tasks on current learning and previous learning  
Students should use their knowledge organisers and exercise books to help them complete Sparx homework

## What went before?

Variation

## Learning Intentions

- Describe how the current, voltage and resistance are related to one another
- Explain that components in circuits can be arranged in series or parallel and describe how these arrangements effect the voltage and current and provide different applications

## Where next?

Static

## Vocabulary

1. **Potential difference (voltage):** the energy transferred per coulomb of charge.
2. **Voltmeter:** An instrument used for measuring potential difference.
3. **Ammeter:** An instrument used for measuring current.
4. **Resistance:** Tries to prevent current flowing.
5. **Electrical component:** Something that you put into an electrical circuit.

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. What are the units of voltage?
2. What is the symbol for a closed switch?
3. What is potential difference also known as?
4. What is resistance?
5. What is the symbol for a battery?

Sparx Science homework is set each Thursday and it is due each Wednesday.  
85% task completion will be accepted if a student has spent 30 minutes or more of active learning on Sparx Science.

Listening	

**What went before?**  
Voltage

**Learning Intentions**

By the end of this topic, I will be able to describe how:

- Charges produced electric fields around them.
- Positive and negative charges interact.
- Static electricity is produced and its effects

**Where next?**  
Earth's Structure

**Vocabulary**

- **Negatively charged:** A particle that has gained excess electrons.
- **Positively charged:** A particle that has lost electrons.
- **Electrons:** Tiny particles which are part of atoms and carry a negative charge.
- **Charged up:** When materials are rubbed together, electrons move from one surface to the other.
- **Electrostatic force:** The force of attraction or repulsion between charged.
- **Current:** The rate of flow of electric charge, in amperes (A).
- **In series:** A circuit with only one loop.
- **In parallel:** A circuit with more than one loop

**Knowledge Organiser**  
**Quiz Questions**

**Answers**

**Homework**  
**Expectations**

**Parent**  
**Guide**

1. Which particle in an atom is negatively charged?
2. If a particle loses an electron, does it become positive or negative?
3. When number of protons equals number of electrons what is the object said to be?
4. What particle moves when 2 insulators are rubbed together?
5. What does a charged object create?

Sparx Science homework is set each Thursday, and it is due each Wednesday.  
85% task completion will be accepted if a student has spent 30 minutes or more of active learning on Sparx Science.

## What went before?

Static

## Learning Intentions

- Recall the layers of the earth & describe their structure
- State three major categories of rock & describe their formation
- Model the processes that are responsible for rock formation and link these to rock features
- Describe & explain the stages of weathering and erosion

## Where next?

Climate

## Vocabulary

- **Weathering:** wearing down of rock by physical, chemical or biological processes
- **Erosion:** friction & movement of rocks by water, ice or wind
- **Minerals:** chemicals that rocks are made from
- **Sedimentary:** formed from layers of sediment, can contain fossils
- **Igneous:** formed from cooled magma, has crystals
- **Metamorphic:** formed from existing rock exposed to heat & pressure over time

**Knowledge Organiser**    **Answers**  
**Quiz Questions**

**Homework**  
**Expectations**

**Parent**  
**Guide**

1. Name the layers of the earth
2. Which type of rock is formed by heat and pressure?
3. Name a type of igneous rock
4. Name a type of sedimentary rock
5. What process creates sedimentary rocks?

Sparx Science homework is set each Thursday and it is due each Wednesday.  
85% task completion will be accepted if a student has spent 30 minutes or more of active learning on Sparx Science.

Term: 2A/2B

Title: Climate

## What went before?

Earth's Structure

## Learning Intentions

- To be able to describe the greenhouse effect and its consequences for Earth.

## Where next?

Sound

- Combustion:** Burning
- Carbon cycle:** The cycle within which process add and take carbon from the earth's atmosphere
- Acid rain:** The result of oxides of sulfur and nitrogen dissolving in the water vapour in Earth's atmosphere
- Greenhouse effect:** The warming of the Earth's atmosphere due to increased levels of carbon dioxide in the Earth's atmosphere
- Global dimming:** The effect of carbon particulates in the Earth's atmosphere due to the incomplete combustion of fossil fuel

Knowledge Organiser    Answers  
Quiz Questions

Homework  
Expectations

Parent  
Guide

- What gases make up our atmosphere today?
- What are the products of complete combustion of hydrocarbons?
- What happens to limewater in the presence of carbon dioxide?
- Name one greenhouse gas
- Name one source of carbon in the atmosphere

 **What went before?**  
Introduction to Art and the Elements of Art

 **Learning Intentions:**

- Please use bullet points**
- Understand basic colour theory terms and how to apply colour theory to my artwork
  - Be able to neatly apply and layer watercolour paint
  - Understand how to use and apply watercolour
  - Understand and apply the style of artist Wayne Thiebaud to my own work.
  - Design and create a three-dimensional sculpture inspired by Wayne Thiebaud
  - Successfully create a sculpture using ModRoc

 **Where next?**  
Large Complimentary colour oil pastel studies.

 **Vocabulary**

**Three-dimensional** - Three-dimensional art objects are physical shapes and can be seen from all angles and sides they will have height, breadth, and depth.  
**Blending** - Is where two different colours are placed next to each and there is smooth transition from one colour to the next.  
**Tone** - In painting, tone refers to how light or dark a colour is. One colour can have an almost infinite number of different tones.  
**Shading** - Darkening or colouring of a drawing with lines or blocks of colour, it is used to create depth or make an object look three-dimensional.  
**Contrast** - The arrangement of opposite elements: light vs dark, rough vs smooth, large vs small

 <b>Knowledge Organiser</b> <b>Quiz Questions</b>	<b>Answers</b>		 <b>Homework</b> <b>Expectations</b>	<b>Parent</b> <b>Guide</b>	
--	----------------	---	--	-------------------------------	---

1. What is the painting technique called that Wayne Thiebaud developed?
2. What are two colours called that sit opposite each other on the colour wheel?
3. What art movement is Wayne Thiebauds art associated with?
4. What is the main subject of Pop Art paintings?
5. What word is used to describe a three-dimensional art form that can be made from a variety of materials like stone, clay, wood, or metal.

- Colour wheel task
- Artist Information Research
- Coloured pencil study
- Final design task

Term: 2A/2B

Title: Mini Figure Project - Design & Manufacture

### What went before?

Intro to DT including, Health and Safety, 2D and 3D drawing techniques and CAD

### Learning Intentions

#### Please use bullet points

- Investigate how products are designed for a target customer using ACCESS FM.
- Research, design and develop a personalised Mini Figure concept.
- Use rendering and annotation to communicate design ideas clearly.
- Learn and apply CAD/CAM processes including 3D printing and laser cutting.
- Develop practical skills: accurate marking out, cutting with a tenon saw, sanding and assembly.
- Evaluate finished work against design criteria and suggest improvements.

### Where next?

**Graphic Design - Smoothie Packaging**

### Vocabulary

1. **CAD:** Computer Aided Design: using a computer to help create design drawings and 3D models.
2. **CAM:** Computer Aided Manufacture: using a computer to control machines (e.g., 3D printers, laser cutters).
3. **3D Printing:** Additive manufacturing: building a 3D object by adding layers of material based on a digital CAD model.
4. **Rendering:** Adding colour, tone, texture and shade to drawings or CAD to make them look realistic.
5. **Tenon Saw:** A saw with a stiffened back for accurate straight cuts in wood.

**Knowledge Organiser Quiz Questions**     **Answers**

**Homework Expectations**

**Parent Guide**

1. What does CAD stand for?
2. What does CAM stand for
3. What is 3D printing?
4. What is rendering used for?

Research and summarise a section of Lego history. Complete missing design work (mind map, ACCESS FM analysis, annotated sketches). Write evaluation paragraphs (WWW/EBI, skills, challenges).

Practical	Yes
Written test	Yes
Homework	Yes
Speaking	No
Listening	No

### What went before?

Students have explored 'The Basics of Drama', 'A Christmas Carol' and 'Washbrook'. Exploring the basic of storytelling and characterisation.

### Learning Intentions

#### Please use bullet points

- Know how I can explore scripted work and show status, tension and comedy.
- Understand the basic plot of the Tempest and its characters and be able to use my characterisation to play them successfully.
- To learn how dramatic skills such as slow motion, creating atmosphere, status, synchronisation can be used in performance to add impact to an audience.

### Where next?

Reading, analysing and performing sections from the play Cloudbusting by Helen Blakeman.

### Vocabulary

1. **Plot** - The main events of a story — what happens from beginning to end and how they connect and show a character's journey.
2. **Slow Motion** - When movements are shown more slowly to make a moment stand out.
3. **Script** - The written plan for a play or performance, including what people say and do.
4. **Characterisation** - How an actor shows a character's personality through voice, movement, and actions.
5. **Character depth** - When a character feels like a real person because we understand their feelings, thoughts, personality, and reasons for doing things - not just what they look like on the outside.

**Knowledge Organiser**  
Quiz Questions

Answers

**Homework**  
Expectations

**Parent**  
Guide

1. What is Status in Drama
2. What is Tension in Drama
3. What is Comic Relief in Drama
4. What is Synchronisation
5. Why is Comic Relief Important?

Students will complete a knowledge quiz at the end of the Unit.

Homework will be to use their knowledge organiser to revise.

### Useful Resources to Support Learning

Links:

### Assessment Check Points

Practical	Yes
Written test	No
Homework	Yes
Speaking	Yes
Listening	No

### What went before?

Students have explored schemes of work on 'The Basics of Drama and A Christmas Carol'

### Learning Intentions

- To learn how to develop characters with depth.
- I will be able to understand how a character's thoughts and feelings can change over time and how I can use my performance skills to show this.

### Where next?

Students will be working on Shakespeare's The Tempest

### Vocabulary

1. **Status:** How important or powerful a character or person seems in a situation.
2. **Improvisation:** Making up actions or speech on the spot without a script.
3. **Cross-Cutting:** Switching between two different scenes to show they are connected.
4. **Reporting:** When someone tells the audience what has happened instead of acting it out.
5. **Characterisation:** How an actor shows what their character is like through voice, movement, and behaviour.

**Knowledge Organiser**    **Answers**  
**Quiz Questions**

**Homework**    **Parent**  
**Expectations**    **Guide**

1. What is spontaneous improvisation?
2. How can we show depth in our characterisation?
3. What is documentary theatre?
4. Why is it important that a character's emotions change in a narrative?
5. How can we mark a moment in a performance?

Students will complete a knowledge quiz at the end of the unit of work and therefore homework will be revision from their knowledge organiser.

### Useful Resources to Support Learning

### Assessment Check Points

Practical	Yes
Written test	No
Homework	No
Speaking	Yes
Listening	No

### What went before?

Introduction to Food and Hygiene

### Learning Intentions

- Consolidate and extend baking skills - apply creaming and all-in-one methods, compare outcomes, and develop confidence in producing consistent baked goods.
- Understand the role of raising agents - explore chemical, mechanical, and biological raising methods, applying this knowledge through practical experiments.
- Develop skills in sensory evaluation –taste, compare, and evaluate products using appropriate vocabulary, identifying differences in texture, flavour, and appearance.
- Apply safe practices when preparing savoury dishes - prepare and cook dishes using raw meat, vegetables, and soup-making techniques, understanding heat transfer and safe handling of ingredients.
- Recognise the cultural and religious significance of food –learn about the links between food and Christian celebrations such as Easter, reflecting on how food traditions shape cultural identity.

### Where next?

Nutrition, Skills and Sustainability

### Vocabulary

1. **Creaming method:** A baking technique where fat and sugar are beaten together to trap air, helping cakes rise.
2. **Raising agent:** A substance or method used to make baked products rise (eg baking powder, yeast, whisking).
3. **Sensory evaluation:** Testing and describing food using sight, smell, taste, touch, and sometimes sound.
4. **Heat transfer:** The way heat moves when cooking food (conduction, convection, radiation).
5. **Celebration food:** Foods that are traditionally made or eaten during festivals or religious events.

Knowledge Organiser  
5 Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. How do you treat a small cut?
2. Explain the difference between the claw and bridge hand hold when using knives.
3. What does the term cross contamination mean?
4. What are the 5 sections of the Eatwell guide?
5. What foods should we eat less of?

Students are expected to bring their own ingredients for practical lessons. At the start of the year, a recipe booklet will be sent home, and practical dates will be published on Satchel each half term. Written homework will be set in booklets designed to help students recall and apply knowledge from theory lessons. This will usually be set twice per half term, though the exact amount may vary depending on the level of practical work being undertaken

### What went before?

Talking about your school, adjectival agreement, present tense of ER verbs

### Learning Intentions

- To talk about the weather and seasons
- To talk about the sports you play
- To talk about the sports you do
- To look at sport in French-speaking countries
- To give information about what you like doing in your free time
- To ask and answer questions

**Where next?** Saying where you live, talking about what you eat and drink and describing your physical characteristics

### Vocabulary

1. **Present tense:** the tense used to talk about what you are doing now
2. **To conjugate verbs:** how to change a verb to reflect who is speaking
3. **Adjectival agreement:** how to match your adjective ending to the verb it is describing
4. **Subject pronouns-**the person who is speaking
5. **Infinitive:** the part of the verb which means “to do something”

**Knowledge Organiser**    **Answers**  
**Quiz Questions**

**Homework**  
**Expectations**

**Parent**  
**Guide**

1. Can you give five different types of weather in French?
2. Name two sports involving a ball
3. Name two sports that you do standing up
4. Say three things you like to do in your free time
5. Ask somebody what they do in their free time

- Preparation for 2 Satchel quizzes
- Preparation for 3 vocabulary tests

Year Group: 7

Term: 2A/2B

Title: Is Earth Running out of Natural Resources?

### What went before:

What is geography, map skills and weather

### Learning Intentions

- How do we use our planet as a natural resource?
- What are rocks and are they a natural resource?
- Why are soils the root of life?
- How does the biosphere provide natural resources?
- How does the hydrosphere provide natural resources?
- Why is the world so dependent on oil resources
- What natural resources can be used to generate electricity?
- How can we use natural resources sustainably?

### Where next:

Rivers and flooding

### Vocabulary

1. **Natural Resources:** substances found in nature that can benefit humans.
2. **Renewable:** resources that can be replaced over time and will not run out.
3. **Non-renewable:** resources that are limited and will run out at some point.
4. **Weathering:** the wearing away of rocks by weather, plants and chemicals.
5. **Soil:** thin layer on the earth's surface containing minerals, water and organic matter, vital for plant growth.

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. What are the Earth's 4 spheres?
2. What is the difference between renewable and non-renewable resources?
3. Name 3 types of rocks.
4. What can the tropical rainforest provide for humans?
5. What does sustainability mean?

Students will be expected to complete regular quizzes to test knowledge and understanding

# Learning Programme

# Subject: History

Year Group: 7

Term: 2A/2B

Title: Power in the Middle Ages

## What went before?

The Normans

## Learning Intentions

- Who had the most power in the Middle Ages?
- What was the Medieval Church like?
- What caused the murder of Thomas Becket?
- Who had more power? Was it the King or the Church?
- King John – an evil King?
- Why did the barons revolt?
- Why were peasants so angry in 1381?

## Where next?

Life Through the Ages

## Vocabulary

1. **Power** - when a group of people or an individual has control and influence over people's beliefs, actions, and behaviour.
2. **The Clergy** – someone who works for the church.
3. **Excommunicated** – to be banned and cut off from the Catholic Church.
4. **Baron** – a powerful lord granted land by the King.
5. **Chancellor** – one of the king's closest advisors, helping with the creation and writing of laws.

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. Who was murdered at Canterbury Cathedral?
2. What happened to King John?
3. What was the name of the wars that hoped to 'reclaim' the Holy Land?
4. What year was the Peasants Revolt?
5. What does the Pope control?

There will be tasks set by teachers across the topic. Where tasks are not set, there is an expectation that students will revisit and revise their work from previous topics and access their knowledge organisers.

Year Group: 7

Term: 2A

Title: Understanding Computers

### What went before?

Digital Storybooks- Using PowerPoint

### Learning Intentions

- Understand what input and output devices are and identify a few devices for each category
- Explain the main hardware on the motherboard
- Explain what secondary storage is and why we need it
- Identify the different expansion cards used in computers
- Explain the different types of software used in computers

### Where next?

Algorithms- Understanding how we give computers instructions

### Vocabulary

**Hardware:** the physical parts of a computer system

**Software:** the programs on a computer that help it perform certain tasks

**Memory:** where a computer stores files and software

**Input Device:** used to provide data to a computer system

**Output Device:** used to communicate the outcomes of data that has been processed

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. What type of device is a keyboard?
2. What type of internal storage stores all the instructions to boot up a computer?
3. What type of storage is a hard drive?
4. What does the CPU do?
5. What software do we use to interact with a computer system?

Students will receive homework using the platform Wayground. This will comprise of a small number of recall questions based on the learning for this topic so far.

Practical	No
Written test	Yes
Homework	Yes
Speaking	No
Listening	No

### What went before?

Understanding Computers

### Learning Intentions

- Understand what is meant by the term algorithm
- Be able to write a simple algorithm
- Know what a flow chart is
- Identify the purpose of different flow chart symbols
- Create a flowchart
- Understand basic sorts and searches a computer can do

### Where next?

Python Turtle- Programming skills

### Vocabulary

1. **Algorithm:** a sequence of instructions used to solve a problem, or complete a process
2. **Sequence:** the order instructions need to go in to be completed correctly
3. **Instruction:** a single action that can be performed by a computer processor
4. **Flowchart:** a visual diagram showing the sequence of instructions in an Algorithm
5. **Selection:** deciding the next instruction that needs to happen by answering a question

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. What shape is used to show a process?
2. How many lines would a decision shape have leaving it?
3. Which item in a list do we start with when completing a binary search?
4. Why would we use a merge sort?
5. When writing an algorithm, the instructions have to be in the correct \_\_\_\_\_?

Students will receive homework using the platform Wayground. This will comprise of a small number of recall questions based on the learning for this topic so far.

# Learning Programme

# Subject: Music

Year Group: 7

Term: 1B - 2A

Title: Basic Music Theory

## What went before?

Elements of Music, Keyboard skills, Ukulele skills

## Learning Intentions

- Understanding the building blocks of music theory and notation
- You will gain knowledge and understanding of music theory up to grade 1 standard

## Where next?

Continued keyboard skills to apply knowledge

## Vocabulary

1. **Treble Clef:** notes are written on this clef to represent higher sounds
2. **Semibreve:** a 4 beat note
3. **Minim:** a 2 beat note
4. **Crotchet:** a 1 beat note
5. **Quaver:** a half beat note

## Knowledge Organiser Quiz Questions

Answers

## Homework Expectations

Parent Guide

1. What is the quick way of remembering the notes in the spaces of the treble clef stave?
2. What is the acronym to remember the notes on the lines of the treble clef stave?
3. How long does a minim last for?
4. Where would you find C on the keyboard
5. What is the name of a 4 beat note?

- Satchel quizzes
- Revision using Knowledge Organisers

# Learning Programme

# Subject: Music

Year Group: 7

Term: 1B-2A

Title: Keyboard Skills

## What went before?

Elements of Music, Ukulele skills, Basic theory

## Learning Intentions

### Please use bullet points

- Understand the layout of the keyboard and correct playing posture
- Reading simple treble notation
- Perform short pieces and reflect on progress
- Add left hand chords to right hand melodies
- Add rhythmic background beat to keep to a pulse

## Where next?

Apply knowledge to 'Fanfares'

## Vocabulary

1. **Middle C:** this is where the right-hand thumb should be positioned.
2. **Melody:** where different pitches are played in succession to produce a tune or 'melody'
3. **Chords:** where the left hand plays an accompanying note to the melody
4. **Background rhythm:** the keyboard can produce a background beat for students to play along to. This develops a sense of timing and pulse.

Knowledge Organiser

# Learning Programme

# Subject: Music

Year Group: 7

Term: 2B

Title: Fanfares

## What went before?

Elements of Music, Uke and Keyboard skills, Basic theory

## Learning Intentions

- I will develop knowledge of the purpose, ceremonies and people associated with fanfares
- I will develop knowledge of key composers and repertoire of fanfares I will develop knowledge of musical requirements for producing a successful fanfare and then use this to compose my own fanfare.
- I will develop performance skills using both percussion and keyboard (as brass) by practicing and performing a fanfare of my choosing.

## Where next?

Instruments of the orchestra

## Vocabulary

1. **Fanfare:** a short piece of music played for the arrival of someone important. Usually a flourish of trumpets.
2. **Timbre:** the instruments used in a piece of music.
3. **Brass:** trumpets, Trombones, Horns, Tubas. Common in Fanfare music.
4. **Percussion:** instruments which are hit or shaken to create their sound. Common in Fanfare music.
5. **Texture:** Unison, Harmony, Canon, Call and response, Contrary Motion

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. When or why would a fanfare be performed?
2. What instruments are characteristic of a fanfare?
3. What are the musical elements of Texture?
4. Describe the texture of 'Contrary Motion'.
5. What does the texture 'Unison' mean?

Satchel Quiz or revision using Knowledge organiser.

### What went before?

Where in World is Christianity?

### Learning Intentions

- Who do people say Jesus is? 1a and 1b
- How do the events of Holy Week truly tell us who Christians believe Jesus was?
- Why did Jesus die?
- What happened on Easter Sunday?
- Where is the evidence for the resurrection of Jesus?
- Did Jesus really rise from the dead?

### Where next?

Where do people go to find affirmation of faith?

### Vocabulary

1. **Holy week:** the week before Easter, starting on Palm Sunday.
2. **Prophecy:** a prediction of what will happen in the future.
3. **Atonement:** the action of making amends for a wrong or injury.
4. **Physical resurrection:** the belief that after death, the physical body is restored to life in a new, transformed, and immortal state, free from corruption and death
5. **Spiritual resurrection:** a future spiritual resurrection of the soul into an afterlife.

Knowledge Organiser  
Quiz Questions

Answers

Homework  
Expectations

Parent  
Guide

1. What is the name of the week that comes before Easter?
2. How was Jesus put to death?
3. Why was the death of Jesus important?
4. Which 2 ways do Christians believe we might live after death?
5. What is a prophecy?

Homework will be set fortnightly as quizzes on Satchel

### What went before?

Saying what you like and dislike and using AR verbs in the present tense

### Learning Intentions

- Say what subjects I study
- Use the days of the week
- Give opinions about school subjects
- To say what facilities your school has
- To describe my school
- To talk about break time

### Where next?

Describing your family and self and using large numbers

### Vocabulary

1. **Present tense:** saying what you are doing now
2. **To conjugate verbs:** to put verbs into the form of who is speaking (eg he goes, we eat)
3. **Adjectival agreement:** to ensure your adjectives agree with the verb they are describing
4. **Nouns & articles:** objects and the words for “the” and “a”
5. **Negative phrases:** say what you don’t do
